DISCONNECTION OF TEMPORARY WATER SUPPLY

Project: 21-T17 – Reconstruction of Third Street

The temporary water supply is expected to be shut off on:

Wednesday July 20, 2022

All residences will be switched over from the temporary water supply back to the municipal water system.

The Contractor will be going door to door once the temporary water supply has been turned off. They will be connecting each property to the municipal water system. If you will not be home at the time specified above, please follow the instructions below:

- Close small valve situated on the “Y” adapter attached to your outside tap to point away from your outside tap (see diagram).
- Close your outside garden tap by turning the tap clockwise.
- Turn on your main waterline supply valve (usually located in the basement towards front of the house).
- Open your cold water tap on your bathtub and let it run for 5-7 min

If you still do not have water, please call 613-932-6571 and a representative will walk you through the steps to turn your water on. They will be able to assist you if required.

Visit www.cornwall.ca/first to learn more about the project and subscribe to receive e-mail updates and digital notices at the various project milestones.
