Temporary Water Cold Weather Measures

Tender No.: 25-T27 Location: Lauber Ave. from Cumberland St. to Bedford St.

Please be advised that cold weather measures for the temporary water system will be taking into effect starting November 7, 2025, and will continue into next week until the water system can be reconnected to the existing watermain for the winter:

The Contractor will be instituting measure to prevent the freezing temporary water system. When temperatures fall below 3 deg Celsius

Residents are asked to during freezing temperatures, they leave one of the taps in their houses **ON**. This ensures the steady flow of water into their house to keep the hose lines leading from the Yellow temporary main to the house outdoor tap from freezing.

Should residents experience any issues, they should call **Malyon Excavation Ltd.** at the numbers provided below for assistance.

We apologize for the inconvenience. If you have any questions or require further information, please reach out to the project team using the contact information provided below.
