NEW BUSINESS

1 Changes to Autism Spectrum Disorder Funding

Click for detail --> 

Whereas Autism Spectrum Disorder (ASD) is now recognized as the most common neurological disorder affecting 1 in every 66 children (over 100,000 Ontarians), as well as their friends, family and community; and,

Whereas representatives of the local autism community have been raising awareness of the impacts of the province's changes to autism funding in the Cornwall region including seeking support of community partners; and,

Whereas the Province of Ontario has announced it is altering the intervention funding model for children with ASD which will disregard need, and consider only a child's age and family income; and,

Whereas as ASD affects all people differently, their sensory, behavioural and educational needs must be individually addressed by qualified clinicians in order to facilitate better long-term outcomes; and,

Whereas the new funding model will be insufficient to provide minimal clinically indicated intensity, leaving families requiring IBI with an untenable budget shortfall; and,

Whereas the province announced 'enhancements' to the new Ontario Autism Program that will extend services for up to six more months only for children currently in service, leaving up to 23,000 Ontario children with insufficient funding for appropriate clinical intervention; and,

Whereas considerable concern has been expressed about these changes by a broad range of stakeholders including Autism Ontario, physicians, psychologists, behaviourists, educators and parents;

Now therefore be it resolved that the Council of The Corporation of the City of Cornwall requests that the Minister of Children, Community and Social Services suspend implementation of its planned changes (including enhancements and) to the Ontario Autism Program pending meaningful consultation with a broad range of qualified stakeholders and inclusion of necessary revisions to the program to ensure that autistic children and adults receive the support they need to thrive within their communities, and that a copy of this resolution be forwarded to Premier Ford, Minister MacLeod, the Association of Municipalities Ontario, our MPP and all municipalities in SDG.

A recorded vote on this matter resulted as follows:

Votes For = 8

2 Cuts to Public Health Units

Click for detail --> 

Whereas the Provincial Government is cutting \$200,000,000 to Public Health Units.

Whereas the funding formula is being changed to municipalities with a population of under 100,000 from a 75% provincial share and 25% municipal share to a 70% provincial share and 30% municipal share for 2019 and 2020 and a 65% provincial and 35% municipal share in 2021 and 2022.

Whereas the changes will affect the City of Cornwall's Budget and, ultimately, the cost will be downloaded to the City taxpayers.

Whereas the Province is also reducing the number of Health Units across the Province from 35 units to 10 units which does not recognize the diversity of needs of individual health issues across the Province and, effectively, will lead to less input by municipalities.

Now therefore be it resolved that the Council of The Corporation of the City of Cornwall calls upon the Ontario Government to reverse the plan outlined in the 2019 Budget that slashes the funding and the amount of units in the Province of Ontario.

Now therefore be it further resolved that this Resolution be forwarded to the Premier of Ontario, the Minister of Health and Long Term Care, our MPP, the Association of Municipalities of Ontario, the Association of Municipal Managers, Clerks and Treasurers of Ontario and l'Association française des municipalités de l'Ontario.

Motion to defer until further information is received and Administration to report back to Council on the municipality's financial impact.
