PRESENTATIONS1. Mr. Laszlo Szabo - Canada Post Corporation

Mr. Szabo thanked Council for the opportunity of making his presentation. He stated that Canada Post is committed to providing all Canadians with reliable accessible and affordable postal services and products. In order to improve reliability, Canada Post set out a program of operational improvements in the way mail is collected, processed and delivered. Setting up retail postal outlets in local businesses is making it easier for the public to gain access to services and products. Another measurement of service to both rural and urban Canadians is improved delivery methods. Increases in the basic letter rate are limited to within the level of inflation.
