DELEGATIONS

CUPE LOCAL 234

Messrs. J. Martin, President and F. MacIsaac, Vice-President, reiterated its position that the City would be better served by having its own employees doing the Blue Box Program.

Mr. MacIsaac indicated that his local has the expertise to do the work and that their costs are well within the bids received for this tender. Further, the transfer of eight (8) employees to the Environmental Services would not require hiring any permanent staff. These vacated jobs could be taken up by temporary help with a reduction in services. He concluded his presentation by indicating that his local was not familiar with the calculation used by management to indicate that the "in house" proposal would cost \$655,365. He requested that this matter be deferred until the end of January allowing the union to review further the proposal and negotiate further with Local 3251.

In response, Mr. Megill indicated that the proposal was not a union proposal and that the amount of \$655,365 contained in his report included the transfer of eight (8) men to Environmental Services from the Public Works operations plus the addition of 3 additional staff.
