DELEGATIONS

1. Mr. Ted Graveley - Chairman, Committee for an Affordable Pool.

Mr. Graveley indicated that the Committee was formed about one year ago and since then has received more and more support. He stated that the effects from free trade and the recession have caused serious hardship in the community, witnessed by a high unemployment rate. He also indicated that the City has lost its AA rating and no funding is forthcoming from the provincial government. His Committee supports a facility of \$3 - \$4 million and that is the main reason the Committee supports the referendum resolution on this evening's agenda and he encouraged Council to support it.

2. Mr. Brian Johnston, P.A.L.S. - People Against Landfill Site

Mr. Johnston indicated that his group is before Council to voice its concerns about Domtar proposing to place another Big Ben facility within the City limits. He recognized that landfill sites are a necessity but it is important that the most suitable site be chosen, the site with the least potential damage to the environment and the site which will least affect the citizens around it. He opposes the site at the intersection of Highway 401 and Brookdale Avenue. His reasons are because of the environmental impact at this location for: odour, the potential for groundwater and well water contamination. He also opposes the site to be located within the City of Cornwall due to long lasting effects on the citizens and the future image of the City.

He concluded his presentation by indicating that they will be back at a later date to present to Council a petition. Mayor Poirier thanked Mr. Johnston for his delegation and assured him that Council was very sensitive to protecting its citizens against harmful environmental services and that Council would assess this project carefully whenever it comes before Council for any type of action.
